TITLE Michigan Community Colleges Activities Classification Structure (ACS) 1993-94 Data Book.
INSTITUTION Michigan State Board of Education, Lansing.
PUB DATE Feb 95
NOTE 296p.
PUB TYPE Statistical Data (110) -- Reports - Descriptive (141)

EDRS PRICE MF01/PC12 Plus Postage.
DESCRIPTORS Community Colleges; Correctional Institutions; *Enrollment Rate; Enrollment Trends; *Expenditures; *Financial Support; Fringe Benefits; *Income; *Program Costs; Property Taxes; State Federal Aid; Tables (Data); *Teacher Salaries; Two Year Colleges

ABSTRACT

The data provided in this report were providing by Michigan's 29 community colleges and focus on the areas of instruction, personnel, revenues, expenditures, and the state funding formula. Section I includes tables providing historical data on state appropriations, unduplicated headcount, tuition charges, state equalized valuation, general fund revenues, job training/retraining investment funds, and at-risk student grants. Section II includes instructional data, including fiscal-year equated student (equalling 31 semester credit hours) by instrumental sub-activity and element; credit hours in prisoner education; student contact hours (SCH); and unduplicated student headcounts. Section III provides information on personnel ratios and percentages for the 29 colleges and 1 correctional institution. Section IV focuses on college revenues, including general fund revenue sources; tuition and fees; property taxes; and state aid. Section V offers expenditures information for general fund activity, average compensation, SCH cost by sub-activities, state average cost per SCH, salaries and fringe benefits, student services, physical plant expenditures, and energy costs per cubic foot. The final section offers Michigan's Community College funding formula. Highlights of the report include: (1) fiscal year equated students (FYES) decreased 5.4%; (2) unduplicated headcount per FYES ratio declined from 3.46 to 3.43; (3) general academic instruction showed a slight enrollment increase; (4) total faculty decreased by 4.8%; (5) part-time faculty decreased by 8.11%; (6) tuition and fee revenue increased by 45% over the decade; (7) local tax support showed a 51% increase since 1985; and (8) state aid increased 38% over the last 10 years. (A companion report provides course enrollment data.) Appendixes provide abbreviations used in tables and definitions, activities classification structure diagram, instruction activity diagram, activity definitions, and a map of Michigan public junior and community colleges. INTRODUCTION

This Activities Classification Structure (ACS) Data Book is an annual publication based on data submitted by Michigan's twenty nine community colleges. The Community College Appropriations Act assigns primary responsibility for data collection to the Michigan Department of Education. Public Act 419 of 1978 mandated the development of the current data which is required to be fully compatible with the Michigan Manual for Uniform Financial Reporting.

The fiscal year 1994-95 Community College Appropriations Act (Public Act 285 of 1994) was based on the data contained in last year's data book, and it is expected that the information contained in this publication will provide the basis for appropriations decisions for fiscal year 1995-96. (NOTE: A fiscal year is October 1 - September 30, i.e., for the purpose of state appropriations, fiscal year 1994-95 covers the period October 1, 1994 through September 30, 1995. A fiscal year for community colleges, however, is defined as July 1 - June 30, i.e., fiscal year 1994-95 covers the period July 1, 1994 through June 30, 1995.)

The information in this data book is also utilized to derive comparisons among colleges on a number of significant issues which relate to institutional policies. Questions regarding size of physical plant, revenue sources, expenditure levels, staffing patterns, etc. may be answered by inspecting the tables and charts within this document. Data displayed in the tables and charts in Sections I-VI of this document describe general fund activities only.

Users of this data book should be aware of certain definitions. Specifically, each fiscal year equated student (FYES) requires 31 semester credit hours. One student contact hour (SCOH) is defined as 50 minutes of instruction.

The Appendix to this document contains a Michigan map showing the location of each community college. It also contains ACS definitions and abbreviations.

NOTE: The general fund revenue and expenditure data for Wayne County Community College contained in this book is unaudited. If audited figures greatly impact the data tables, it will be revised and re-issued.

The 1993-94 SEV and Revenue Loss Survey will be issued as a supplement to this document.

EXECUTIVE SUMMARY

MICHIGAN COMMUNITY COLLEGES FISCAL YEARS 1982-83 THROUGH 1993-94

FISCAL YEAR EQUATED STUDENTS (FYES)

UNDULICATED STUDENT HEADCOUNTS

The number of Fiscal Year Equated Students (FYES) in Michigan Community Colleges decreased to 123,452 in 1994, representing a 5.4% decline from 1993. The unduplicated student headcount decreased 6.33% from 1993. The unduplicated headcount per FYES ratio for Michigan in 1993 was 3.46; in 1994 it declined slightly to 3.43. The headcount per FYES ratios by college vary from 1.88 to 5.3, indicating that some colleges have a greater proportion of students taking one or two courses. Unduplicated Student Headcounts were calculated for fall term only until 1988, when they started counting for the entire school year. See Table 2 for FYES history, Table 2A for Unduplicated Headcount history, and Table 16 for headcount per FYES ratios.

DISTRIBUTION OF GENERAL FUND FISCAL YEAR EQUATED STUDENT (FYES) BY INSTRUCTIONAL SUB-ACTIVITY

General academic instruction showed a slight enrollment increase in 1993-94, accounting for 52.6% (64,934) of all FYES. Enrollments in the Health Occupations continue to show a steady increase, accounting for 8.57% of FYES in 1993-94 as compared to 8.21% in 1992-93. Business and Trade enrollments decreased slightly in 1993-94 from 1992-93 levels. Business accounted for 21.66% (26,745 FYES) of total FYES; while Trade enrollments accounted for 8.22% (10,148) of FYES.

Developmental Instruction FYES remained even with the 1992-93 level, while Human Development instruction enrollments experienced a decrease from .65% in 1992-93 to .58% in 1993-94.

See Table 10 for distribution of FYES by instructional sub-activity and element.

FULL-TIME EQUATED FACULTY 1987-88 THROUGH 1993-94

1993-94 FACULTY FTE DISTRIBUTION

Total faculty at Michigan community colleges decreased 4.8% in 1993-94, dropping from 7,155 in 1992-93 to 6,827. The number of full-time faculty declined 2.95% to 2,828, the lowest in the past seven years.

The number of part-time faculty, which had increased 24% between 1987-88 and 1992-93, dropped 8.11% from last year. Part-time faculty currently make up 42% of the community college faculty composition; while full-time faculty account for 41%.

Overload faculty account for the remaining 17% of FTE faculty.

See Table 17A for details of 1993-94 faculty FTE.

1993-94 GENERAL FUND EXPENDITURES

The state pattern of spending at Michigan community colleges is similar to previous years. In 1993-94, Instruction accounted for 50.1% of all general fund expenditures. Instructional Support expenditures remained stable at 13.8%.

Student Services remained the same, 11.6% of the expenditures. Institutional Administration, Physical Plant Operations, and Public Service remained virtually the same as 1992-93 levels.

See Table 29 for expenditure details.

GENERAL FUND REVENUE SOURCES AS A PERCENTAGE OF TOTAL GENERAL FUND REVENUE

REVENUE SOURCE	1989-90	1990-91	1991-92	1992-93	1993-94
STATE AID	38.0%	36.9%	38.4%	35.8%	34.3%
PROPERTY TAX	26.5%	27.2%	28.3%	28.5%	30.5%
TUITION/FEES	30.3%	31.7%	31.1%	33.5%	32.2%
ALL OTHER	5.2%	4.2%	2.2%	2.2%	3.0%

GENERAL FUND REVENUE PER FISCAL YEAR EQUATED STUDENTS (FYES)

Tuition and fee revenue per FYES increased 45% over the decade; increasing from \$996 to \$1799.

The local tax support per FYES given to Michigan community colleges continues to increase; showing a 51% rise since 1985.

State aid per FYES in 1993-94 was \$1,913 reflecting a 38% increase over the past 10 years.

See Table 25 for revenues per FYES.

TABLE 1 (continued)
STATE APPROPRIATIONS HISTORY
1979-80 THROUGH 1994-95

FOOTNOTES:

State appropriations include categorical grants.

Table 1 depicts appropriations received by colleges following numerous adjustments as document below:

1979-80	\$134,596,600 appropriated; enrollment adjustment in ensuing year; Executive Order 1980-3 deducted \$2,000,000 (1.5%)
1980-81	\$122,417,000 appropriated; Executive Order 1981-8 deducted \$3,672,510 (3%)
1981-82	\$135,902,100 appropriated; Executive Order 1981-9 deducted \$3,872,556 (2.5%); Executive Order 1982-6 deducted \$1,500,000 (1.1%); Executive Order 1982-13 deducted \$7,000,000 (5.4%)
1982-83	\$137,000,000 appropriated; Executive Order 1983-5 deducted \$2,000,000 (1.5%)
1984-85	Wayne County Community College's state aid includes \$250,000 for the State Monitor
1985-86	State total includes the supplemental appropriation as distributed in P.A. 111 of 1986. Wayne County Community College's state aid includes \$100,000 for the State Monitor
1986-87	\$950,000 in energy funds brings the total to \$189,121,900
1987-88	\$672,000 in energy funds brings the total appropriated to \$198,752,300 (P.A. 137 of 1987); a .75% (\$1,485,500) reduction was made by P.A. 201 of 1987 (a negative supplemental appropriations act affecting all state appropriations necessary to meet a state constitutional requirement for a balanced budget)
1988-89	Includes \$4,000,000 in supplemental appropriations (P.A. 160 of 1989)
1990-91	Appropriation was reduced to \$223,210,400 reflecting a 1.013% reduction in operations and in JTRIF. The At Risk Student Program was not reduced.
1991-92	An appropriation of \$3,100,000 for the Tuition Incentive Program is not included in the totals. Additionally, a veto of \$8,734,700 in state funds appropriated to the retirement system is also not reflected because the funds are not included in the appropriations to community colleges.

NOTE: By definition, a semester credit hour must not be less than 800 minutes of instruction. Since one SCOH is 50 minutes of student instruction, a minimum of 16 course contact hours is necessary to generate one semester credit hour. A ratio of 1.00 or greater indicates that the minimum instructional time exists for that instructional activity.

SECTION VI
FUNDING FORMULA

160

161

1995-96 GROSS NEED
\$652,688,658

THE COMMUNITY COLLEGE FUNDING FORMULA

The community college funding formula can be divided into three components: Instructional Need, Non-Instructional Need, and Tax Grants. The relative weight of each component is illustrated above.

For fiscal year 1996 gross need would equal \$652,688,658.

1995-96 INSTRUCTIONAL NEED
\$319,144,626

INSTRUCTIONAL NEED

Instructional Need is based on the average cost of instruction in six categories. Instructional expenditures are divided by contact hours to determine the average cost per contact hour; the average cost is multiplied by the college's actual contact hours (excluding prisoners) in each instructional category. Table 43 shows Instructional Need for each category. ACS 1.62, Personal Interest, is not included in the funding formula.

Instructional Need for fiscal year 1996 is \$319,144,626.

NOTE: Wayne County Community College's revenue and expenditure data are unaudited.

1995-96 NON-INSTRUCTIONAL NEED
\$318,619,101

NON-INSTRUCTIONAL NEED

Non-Instructional Need (Table 44) is based on expenditures in the following categories: Student Services, Administrative Support, Instructional Support, Physical Plant, Energy, and Equipment.

Instructional Support and Equipment Need are both predicated on Instructional Need. Each institution's actual expenditures for Instructional Support as a percent of Instructional Expenditures are computed (Table 36), and the statewide average percentage is multiplied by each college's Instructional Need. Equipment Need is determined by multiplying each institution's Instructional Need by four percent.

Student Services Need is based upon the actual cost of providing student services (less expenditures for athletics) per headcount. Headcount is based on an annual unduplicated student count. The average cost per student multiplied by the college's actual headcount and \$25 per student receiving Pell grants determines Student Services Need.

Administrative Support Need is dependent on the size of the institution, as defined by fiscal year equated students, and the average proportion Administrative Support costs are of general fund expenditures. Need is determined by taking the average proportion of actual general fund expenditures, in each size category.

Physical Plant Need is determined by computing the average cost (physical plant expenditures less energy expenditures) per square foot. The average cost per square foot is multiplied by the institution's actual square feet. Table 40 indicates each institution's physical plant expenditures per square foot.

Energy Need is determined similarly. Each college's actual area or cubic feet is multiplied by the average energy expenditure per cubic foot for the system. Table 41 shows energy costs per cubic foot.

TAX GRANTS

Historically, there have been two types of tax grants to community colleges. A tax equalization grant has been used to compensate colleges for a low tax base. In this case, tax revenue* per student is equalized upward to a guaranteed level (the state average), if the college qualifies by levying additional millage beyond 1.00 mills (but not in excess of 1.55 mills). The second tax grant has gone to Wayne County Community College to compensate for the 1 mill formula deduction, since the college has levied only .25 mill and not the 1.00 mill. However, following a five-year phaseout plan instituted by the Legislature, the college received voter approval to levy 1 mill; therefore, the special tax grant to the college has been removed from formula calculations.

*Tax revenue is actually the State Equalized Valuation on 1.00 mill.

**1995-96 TARGET NEED
\$310,943,245**

Gross Need = \$652,688,658
Less Deducts = \$341,745,413

DEDUCTIONS

Once gross need has been determined, a number of deductions representing the institution's ability to generate revenue from tuition and fees, property taxes, and other sources reduce gross need to a target need amount. In fiscal year 1996, target need would equal \$310,943,245, a 25.5% increase over the state appropriation for fiscal year 1994-95.

The property tax deduction is based upon the amount of revenue generated by each college's state equalized valuation on 1 mill of property tax. The tuition deduction compares a calculated tuition revenue based on actual in-district and out-of-district tuition rates and in-district and out-of-district credit hours with an imputed average tuition revenue based on the system average in-district rate, the system average out-of-district rate, and actual in-district and out-of-district credit hours. The lesser amount becomes the tuition deduction. Institutions with tuition rates above the system average are able to keep the additional revenue. The other revenue deduction is based on the percentage of total revenue obtained from other sources for all colleges. The average percentage for the system becomes the percentage of each college's total revenue to be deducted.

Table 46 indicates the property tax, tuition, and other revenue deductions for each college.

FTE	Full-Time Equated
FYES	Fiscal Year Equated Student (31 semester credit hours)
SCOH	Student Contact Hour (50 minutes of instruction)
SCRH	Student Credit Hour

DEFINITIONS

Counselors: Those employees, licensed under Public Act 368 of 1978 as amended, who provide specialized services that assist students to identify, plan and attain those goals that are consistent with their aptitudes, needs, abilities and interest, and promote the mental, physical, social, and emotional well-being of the students.

Executive/Administrative/Managerial: Includes persons whose assignments require primary (and major) responsibility for management of the institution, or a customarily recognized department or sub-division of it. Assignments require the performance of work directly related to management policies or general business operations of the institution, department, or sub-division, etc. It is assumed that assignments in this category customarily and regularly require the incumbent to exercise discretion and independent judgment, and to direct the work of others. Included in this category are all officers holding titles such as president, vice president, provost, registrar, controller, business officer, deans, directors (or the equivalent), as well as positions subordinate to any of these administrators with such titles as associate dean, assistant dean, and department heads/chairperson if their principal activity is administrative. Supervisors of professional employees are included here; however, supervisors of non-professional employees (technical, office/clerical, and trade/service) are excluded, as they are included in the specific categories of the personnel they supervise.

Librarians: Individuals whose work requires professional training in the theoretical or scientific aspects of library work, as distinguished from the mechanical or clerical aspects.

Office/Clerical: Non-instructional hourly employees who perform clerical or secretarial duties in offices or other institutional locations, such as secretaries, typists, bookkeepers, file clerks, inventory clerks, payroll clerks, and sales clerks.

Professional: Persons employed for the primary purpose of performing academic support, student service, and institutional support activities, whose assignments require either college graduation or experience of such kind and amount as to provide a comparable background. Includes employees such as accountants, student personnel workers, systems analysts, and persons who sell educational services.

Technical/Paraprofessional: Persons whose assignments require specialized knowledge or skills which may be acquired through experience or academic work. May include persons who perform some of the duties of a professional in a supportive role, which usually requires less formal training and/or experience than normally required for professional status. Includes computer programmers and operators, drafters, engineering aides, dieticians, photographers, radio operators, scientific assistants, technical illustrators, and similar occupational categories which are institutionally defined as technical assignments.

Trade/Service: Non-instructional hourly employees who perform manually skilled activities in a craft or trade, such as carpenters, electricians, roofers, painters, and plumbers; or those who perform activities requiring a limited amount of previously acquired skills or knowledge, such as custodians, groundskeepers, security guards, food service workers, drivers, and messengers.

**MICHIGAN COMMUNITY COLLEGE
ACTIVITIES CLASSIFICATION STRUCTURE (ACS)**

**MICHIGAN COMMUNITY COLLEGE
ACTIVITY CLASSIFICATION STRUCTURE (ACS)
(Instruction Only)**

ACTIVITY DEFINITIONS

(1.0) INSTRUCTION

The Instruction Activity includes those activities carried out for the express purpose of eliciting some measure of educational change in a learner or group of learners. "Educational change" is defined to include: (1) the acquisition or improved understanding of some portion of a body of knowledge; (2) the adoption of new or different attitudes; and (3) the acquisition or measured mastery of a skill or set of skills. The activities that may be carried out to elicit these educational changes include both teaching activities and facilitating activities. The instruction activity includes both credit and non-credit instructional offerings.

Course offerings should be classified into one element classification on a course level. The determination of the classification of instructional offerings into activity elements is based on the basic and primary institutional reason for offering the courses. Briefly stated, the Activities Classification Structure (ACS) recommends defining activity elements on the basis of an aggregation of groups of courses of similar subject matter rather than on the basis of the aggregation of instructional offerings that can be applied toward a particular degree or certificate, or what is commonly called a program. Thus, the subject matter of any course activity determines its element classification.

Instructional offerings in which previously acquired skills or knowledge are used in a specific and exclusive application are defined as applied courses (activities). The subject matter of the area of application determines the classification of applied courses. Applied courses are differentiated from courses in which the learner acquires such basic knowledge or skill, which are which are classified in that activity element reflecting the basic knowledge or skill area. For example, a business communications course is classified as "communications" (activity element 1.12) when the skill to be mastered is primarily communications and not business subject matter.

(3.0) PUBLIC SERVICE

The Public Service Activity includes those program activities established to make available to the public the various unique resources and capabilities of the institution for the specific purpose of responding to a community need or solving a community problem. This program includes the provision of institutional facilities, as well as those services of the faculty and staff that are made available outside the context of the institution's regular instructional program.

(4.0) INSTRUCTIONAL SUPPORT

The Instructional Support Activity includes those activities carried out in direct support of the instructional program. The activities that should be reported in this activity classification include: (1) activities related to the preservation, maintenance, and display of both the stock of knowledge and educational materials (i.e., library services and museums); (2) activities that directly contribute to the way in which instruction is delivered; and (3) activities directly related to the administration of an instructional program.

The activities that should be classified in the Instructional Support Activity differ from those classified in the other support programs in that they are carried out in direct support of the instructional program. While some activities of the Student Service program may contribute indirectly to the institution's instructional objectives, they are generally considered to be a supplement to the instructional program rather than a direct contributor to its objectives. The Institutional Support Activity, on the other hand, is primarily concerned with the institution as an operating entity and tends to focus on the institution as a whole rather than upon individual programs.

(5.0) STUDENT SERVICE

The Student Service Activity includes those activities carried out with the objective of contributing to the emotional and physical well-being of the students, as well as to their intellectual, cultural, and social development outside the context of the institution's regular instructional program. Activities classified here attempt to achieve this objective by: (1) expanding the dimensions of the student's educational and social development by providing cultural, social, and athletic experience; (2) providing those services and conveniences needed by students as members of a student body; (3) assisting students in dealing with personal problems and relationships, as well as their transition from student to member of the labor force; (4) administering a program of financial support for students; and (5) recruiting and admitting students to the institution's educational program.

(6.0) INSTITUTIONAL ADMINISTRATION

The Institutional Administration Activity consists of those activities carried out to provide for both the day-to-day functioning and the long-range viability of the institution as an operating organization. The overall objective of the Institutional Administration Activity is to provide for the institution's organizational effectiveness and continuity by:

(1) providing for planning and executive direction; (2) providing for administrative and logistical services; and (3) enhancing relationships with the institution's constituencies.

(7.0) PHYSICAL PLANT OPERATIONS

The Physical Plant Operations Activity consists of those activities related to maintaining existing grounds and facilities, providing utility services, planning and designing future plant expansion and modifications, and health and safety services.

MICHIGAN COMMUNITY COLLEGES

This document was prepared by:

MICHIGAN DEPARTMENT OF EDUCATION
 Bureau of Postsecondary Education
 Office of Higher Education Management
 Community College Services Unit

C. Danford Austin, Acting Deputy Superintendent
 for Postsecondary Education

Ronald L. Root, Director
 Office of Higher Education Management

James Folkening, Supervisor
 Debbie Lonik, Analyst

ACKNOWLEDGEMENTS

This publication was made possible through the efforts of many individuals, including personnel from each of the twenty-nine community colleges in Michigan, who completed the various Activity Classification Structure reports.

HOW TO OBTAIN ADDITIONAL INFORMATION

Requests for additional information about the Activities Classification Structure and this ACS Data Book should be directed to Ms. Debbie Lonik in the Community College Services Unit at (517) 373-3362, or by writing to the Michigan Department of Education, Community College Services Unit, P.O. Box 30008, Lansing, Michigan 48909.

FEBRUARY 1995

MICHIGAN STATE BOARD OF EDUCATION
STATEMENT OF ASSURANCE OF COMPLIANCE WITH FEDERAL LAW

The Michigan State Board of Education complies with all federal laws and regulations prohibiting discrimination and with all requirements and regulations of the U.S. Department of Education. It is the policy of the Michigan State Board of Education that no person on the basis of race, color, religion, national origin or ancestry, age, sex, marital status or handicap shall be discriminated against, excluded from participation in, denied the benefits of or otherwise be subjected to discrimination in any program or activity for which it is responsible or for which it receives financial assistance from the U.S. Department of Education.
